Braille and tactile sign guidelines

Signs including symbols, numbering and lettering must be designed and installed as follows:

- (a) Braille and tactile components of a sign must be located not less than 1200mm and not higher than 1600mm above the floor or ground surface.
- (b) Signs with single lines of characters must have the lines of tactile characters not less than 1250mm and not higher than 1350mm above the floor or ground surface.
- (c) Signs identifying rooms containing features of facilities listed in D3.6 must be located -
 - i. On the wall on the latch side of the door with the leading edge on the sign located between 50mm and 300mm from the architrave ; and
 - ii. where (i) is not possible, the sign may be placed on the door itself.
- (d) Signs identifying door required by E4.5 to be provided with an exit sign must be located -
 - i. On the side that faces a person seeking egress; and
 - ii. On the wall on the latch side of the door with the leading edge on the sign located between 50mm and 300mm from the architrave ; and
 - iii. where (ii) is not possible, the sign may be placed on the door itself.
